

A list exercise.

Do you know what you really want? I'm referring to the things you want to own, the places you want to visit, the activities you'd like to invest in, etc.

Make a list using these categories - what's the ratio? 33/33/34 - 80/10/10 --- Don't worry, there's no right or wrong answer. This is just a way to explore how you're feeling about your wants... It's connected to the post on PositiveThanksLiving.com - "Use Money as a Tool."

Must Have -----Should Have-----Be Nice to Have
