

If you focus on only
the seeds in a watermelon,
you missed the
sweetness of the meat.

You're one in a Melon!

If people have time and patience,
they will be able to count
the number of seeds in a watermelon.
But not one person can tell you
how many watermelons
will grow by planting one seed.

When do you start on red
and stop on green?
When you're eating a watermelon!

Why did the watermelon go crazy?
He lost his rind.

Why did the watermelons ask
for permission to get married?
Because they cantaloupe!
